Program 11

October 25, 2022

1 PROGRAM 11

Aim : Write a numpy program to get unique elements of an array.

Date :17/08/2022

By :Anu C Scharia

```python
[8]: import numpy as np
     arr=np.array([10,20,10,30,20,40])
     print("Array :",arr)
     print("Unique elements :",np.unique(arr))
```

```
Array : [10 20 10 30 20 40]
Unique elements : [10 20 30 40]
```

```
[ ]:
```
